

SAHID S

AI-Powered Python Developer

Madurai, Tamil Nadu - 625001 • +91 6374921410 • sahidsfathima@gmail.com

Linkedin: <http://linkedin.com/in/sahid-dev> • **Github:** <https://github.com/Sahid-S> • **Portfolio:** <https://sahid.me>

OBJECTIVE

Python Developer with 2+ year of industry experience delivering production-ready APIs, AI integrations, and mobile applications. Passionate about leveraging data science and software engineering to build impactful, user-focused products.

WORK EXPERIENCE

June 2024 - Present

Python Developer (Full-Stack: AI + API + Web and Mobile) - Tactgen, Madurai

- Built and deployed production-ready Flask REST APIs, converting Python scripts into scalable backend services with clean architecture and exception handling.
 - Integrated Azure OpenAI (GPT-4o) and CLIP for OCR, AI-generated product descriptions, image similarity (visual search), and AI-driven automation workflows.
 - Developed React Native mobile apps - product workflows, authentication, pagination, UI/UX improvements, and production APK releases via Gradle.
 - Integrated third-party APIs: eBay Browse & Inventory (OAuth2), Google Custom Search, and Razorpay - enabling automated product retrieval, cross-listing, and payment flows.
 - Engineered backend data pipelines for Excel/CSV processing, catalog import/export, and hybrid GPT-powered fuzzy search systems using Pandas/NumPy.
-

PROJECTS

Workplace Projects

Gottalott – Aggregated E-commerce Fashion Marketplace

Flask · React Native · PostgreSQL · JWT · BeautifulSoup · Selenium · eBay API

- Built a Flask REST API and cross-platform React Native app for a multi-platform fashion marketplace with real-time product search, cross-listing, JWT auth, web scraping (BeautifulSoup, Selenium), and eBay/Google API integrations for automated listings and pricing intelligence.

TactBot Compass – AI-Powered eCommerce Search Suite

Azure OpenAI · Flask

- Built AI-powered search with voice input, auto-correction, fuzzy matching, and GPT-hybrid autocomplete; delivered personalized real-time product recommendations for eCommerce platforms.

TactBot Studio – AI Image Generation & Editing

Azure OpenAI · DALL·E · Flask

- Built an AI tool to generate and edit product visuals (themes, colors, effects, resize, crop) with seamless eCommerce publishing workflows.

Needles Webinar – Multi-Webinar Registration System

Flask · PostgreSQL · Razorpay · Amazon SES

- Individually built a full-stack webinar platform with Amazon SES OTP verification, Razorpay payments, multi-webinar management, webinar-wise participant tracking, and a dynamic admin panel.

Academic Projects

CricWin Pro – AI-Integrated IPL Win Prediction System

Python · Azure OpenAI GPT-4o · Scikit-learn · Streamlit · Plotly

- Dual-model ML ensemble (Logistic Regression + Random Forest) on 150K+ ball-by-ball deliveries for IPL win prediction; Azure OpenAI GPT-4o for live commentary and IPL chatbot; Streamlit + Plotly dashboard with model metrics and win probabilities.

Marine Guard – AI-Based Marine & Coastal Safety Forecasting System

Flask · React · TensorFlow/Keras (GRU) · Azure OpenAI GPT-4o · Open-Meteo · NASA POWER

- End-to-end marine safety platform for 14 Tamil Nadu coastal districts: dual GRU models (Climate + Marine GRU) on NASA POWER data for wave height prediction, 3-level risk classification, bilingual (EN/TA) AI explanations via Azure OpenAI GPT-4o, and React 18 dashboard with wave charts, wind rose, and multi-district overview.

TECHNICAL SKILLS

- **Programming Languages:** Python, JavaScript, TypeScript, SQL
- **Frameworks & Libraries:** Flask, React Native, Streamlit, Pandas, NumPy, Matplotlib, Plotly, Scikit-Learn, TensorFlow
- **Databases:** PostgreSQL, pgAdmin4, SQL Server Management Studio (SSMS)
- **Tools:** Git, GitHub, VS Code, Postman, Android Studio, Hugging Face, Google Colab, Excel
- **AI-Tools:** ChatGPT (Codex), Claude.ai, DeepSeek, Perplexity AI, Gemini, GitHub Copilot, Blackbox AI

EDUCATION

Master of Science in Data Science The American College, Madurai	June 2024 - Present
Bachelor of Science in Computer Science Jamal Mohamed College, Trichy	June 2021 - April 2024

CERTIFICATIONS

- 100 Days of Code: The Complete Python Pro Bootcamp - Udemy
- The Complete Full-Stack Web Development Bootcamp - Udemy
