SUMMARY

Python developer with 1+ years of Intern Experience in building production-grade APIs, AI integrations, and cross-platform mobile apps. Experienced shipping end-to-end systems — from Flask REST backends and Azure OpenAI pipelines to React Native apps and automated data workflows. Passionate about leveraging AI to solve real product problems.

EXPERIENCE

Python Developer (Full-Stack) · Tactgen, Madurai *Feb 2025 – Present*

- Architected and deployed production Flask REST APIs, transforming ad-hoc Python scripts into scalable, well-structured backend services with robust exception handling.
- Integrated Azure OpenAI (GPT-4o) and CLIP to power OCR, AI-generated product descriptions, visual search (image similarity), and end-to-end automation workflows.
- Built and shipped React Native mobile apps covering product workflows, JWT authentication, pagination, and UX improvements — delivering production APKs via Gradle.
- Integrated eBay Browse & Inventory APIs (OAuth2), Google Custom Search, and Razorpay — enabling automated product retrieval, cross-platform listing, and payment processing.
- Engineered backend data pipelines for Excel/CSV catalog import/export and built a hybrid GPT-powered fuzzy search system using Pandas and NumPy.

PROJECTS

Workplace

Gottalott – Aggregated E-Commerce Marketplace *Flask · React Native · PostgreSQL · JWT · BeautifulSoup · Selenium · eBay API*

- Built a multi-platform fashion marketplace with a Flask REST API and React Native app — real-time product search, cross-listing, JWT auth, and web scraping via BeautifulSoup and Selenium.
- Integrated eBay and Google APIs for automated product listings and pricing intelligence.

TactBot Compass – AI-Powered eCommerce Search Suite *Azure OpenAI · Flask*

- Delivered AI-powered search with voice input, auto-correction, fuzzy matching, and GPT-hybrid autocomplete; surfaced personalized real-time product recommendations.

TactBot Studio – AI Image Generation & Editing Tool *Azure OpenAI · DALL·E · Flask*

- Built an AI visual tool to generate and edit product images (themes, colors, effects, resize, crop) with seamless eCommerce publishing workflows.

Needles Webinar – Multi-Webinar Registration Platform *Flask · PostgreSQL · Razorpay · Amazon SES*

- Sole developer of a full-stack webinar platform: OTP verification via Amazon SES, Razorpay payments, multi-webinar management, per-webinar participant tracking, and an admin panel.

Academic

CricWin Pro – AI-Integrated IPL Win Prediction System *Python · Azure OpenAI GPT-4o · Scikit-learn · Streamlit · Plotly*

- Dual-model ML ensemble (Logistic Regression + Random Forest) trained on 150K+ ball-by-ball IPL deliveries; GPT-4o live commentary and chatbot; Streamlit + Plotly dashboard with model metrics.

Marine Guard – Marine & Coastal Safety Forecasting System *Flask · React · TensorFlow/Keras (GRU) · Azure OpenAI GPT-4o · Open-Meteo · NASA POWER*

- End-to-end marine safety platform for 14 Tamil Nadu coastal districts: dual GRU models on NASA POWER data for wave-height prediction, 3-level risk classification, bilingual (EN/TA) GPT-4o explanations, and a React 18 dashboard with wave charts and wind rose visuals.

SKILLS

Core: Python, JavaScript, TypeScript, SQL

Backend / API: Flask, REST APIs, PostgreSQL, Pandas, NumPy, OAuth2, JWT

AI / ML: Azure OpenAI (GPT-4o, DALL·E), CLIP, Scikit-Learn, TensorFlow/Keras, Hugging Face, Streamlit

Frontend / Mobile: React Native, React, Plotly, Matplotlib

Tools: Git, GitHub, Postman, Android Studio, VS Code, Google Colab, Excel, SQL Server (SSMS), pgAdmin4

EDUCATION

M.Sc. Data Science · The American College, Madurai

Jun 2024 – Apr 2026

B.Sc. Computer Science · Jamal Mohamed College, Trichy

Jun 2021 – Apr 2024
